Frequently Asked Questions

Q. Why can’t the Digital Photo Frame play all images?
A. The Digital Photo Frame can support JPEG format pictures, it may not read some files downloaded from the internet.

Q. I have a memory card in the Digital Photo Frame, but it’s not reading the card, what should I do?
A. First, make sure that you are using a memory card that is supported by the Digital Photo Frame. Second, ensure that the memory card is inserted all the way into the correct slot. Third, choose the correct card icon which you want to play.

Q. Why do some pictures load faster than others?
A. Higher resolution pictures usually load slower.
